**The model gives the following statement:**

I have been informed that a so-called transfer of rights to the image is required for a publication and sales of photos and videos made by me at the event.

I agree irrevocably with a full, unlimited temporally and locally publishing and distribution of this photos made by me - for any advertising or storage on data carriers (reliability is provided). Also I have been informed that I have to pay the taxes for monetary fees and bonuses, paid to me, by myself.

Publications of the photos or videos made of me or others, in principle require the prior consent of the photographer (copyright!).

In the case of publications, I have no further rights against third parties (producer, provider, webmaster).

**Field of application for models:**

Registered models can only be planed in for the category that they have specified and they are only bookable for bodypainting and facepainting categories if they have marked those sections with "Yes" .
